

4-in-1 Multi-Purpose Bucket Attachment 0.5m³ to 1.3m³ Loader Concrete Mixing Bucket

Specifications :

Price	Contact us
Place of Origin	China
Min.Order Quantity	1
Payment Terms	OEM?ODM?OBM
Supply Ability	1000
Delivery Detail	one month

Detail Introduction :

Model Code	Attachment Type / Description	Bucket Capacity / Spec	Compatible Loader Model / Series	Key Features & Operation
002	Custom Skeleton / Grapple Bucket	Customized per loader model	Various Wheel Loader Models	Customized skeleton frame for sorting rocks & waste
004A	High-Dump Bucket	High-capacity dump	Standard Wheel Loaders	Hydraulic elevated dumping for high-sided trucks
010B	Refuse & Waste Bucket	Extended Volume	Standard Wheel Loaders	Lightweight large bucket for trash & bulk materials

010C	Dual-Blade Material Bucket	Standard / Heavy Duty	Standard Wheel Loaders	Reinforced dual cutting edge for aggregate loading
016	Concrete Mixing Bucket	0.5 m ³	936Z Series Loaders	Hydraulic auger mixing for on-site concrete batching
016	Concrete Mixing Bucket	0.7 m ³	939F Series Loaders	High-torque motor drive with bottom release gate
016	Concrete Mixing Bucket	1.3 m ³	946 6-Cylinder Series Loaders	Large-volume aggregate & concrete mixing bucket
019	4-in-1 Multi-Purpose Bucket	Multi-size available	936 & Above Series Loaders	Functions as loader, dozer, clam clamp & bottom dump

4-in-1 Multi-Purpose Bucket Integration (Model 019): Combines four essential job-site functions—dozing, clamping/grappling, bottom dumping, and standard loading—into a single hydraulically actuated bucket frame.

Hydraulic Concrete Mixing Bucket (Model 016): Features an internal heavy-duty mixer auger driven by a high-torque hydraulic motor, available in **0.5 m³**, **0.7 m³**, and **1.3 m³ capacities** for fast on-site concrete preparation and pouring.

High-Dump & Specialty Bucket Options: Includes elevated high-dump buckets (Model 004A) for loading high-sided trucks, refuse/waste buckets (Model 010B), and dual-blade reinforced buckets (Model 010C) for tough quarry aggregate.

High-Strength Wear-Resistant Steel: Built with high-tensile steel cutting edges and hardened bucket teeth to withstand heavy shock loads, abrasive concrete aggregates, and rocky soil.

Seamless Loader Model Compatibility: Engineered to fit standard 936Z, 939F, 946 6-cylinder, and 936 & above series wheel loaders with quick-hitch or direct pin-on couplings.

Product Applications

Civil Engineering & Building Construction: On-site concrete batching, mortar mixing, footings pouring, and foundation backfilling.

Road Maintenance & Infrastructure: Grading gravel, spreading aggregate, dozing soil, and cleaning roadside ditches.

Waste Management & Recycling Yards: Loading bulk refuse, clamping scrap debris, and elevating light materials into deep containers.

Why Choose Us?

Maximum Machine Efficiency: Combines multiple site functions into one attachment, significantly lowering capital equipment expenditures.

Factory Direct Customization: Reinforced bucket bottoms, specialized cutting edges, and custom mounting brackets supplied direct from the factory.

Heavy-Duty Reliability: High-grade hydraulic motors, heavy hydraulic cylinders, and reinforced pivot pins guarantee extended operational service lives.
