

Hydraulic Snow Sweeper Broom and Angle Snow Blade Attachment for Wheel Loader

Specifications :

Price	Contact us
Place of Origin	China
Min.Order Quantity	1
Payment Terms	OEM?ODM?OBM
Supply Ability	1000
Delivery Detail	one month

Detail Introduction :

Model Code	Attachment Type / Description	Clearing Width (mm)	Brush Diameter / Capacity	Key Functional Features	Compatible Loader Class
011A	Rotary Snow Sweeper Broom	2500	800 mm Diameter	High-speed rotary brush for light-to-medium snow	936 – 946 Series Loaders
011A	Heavy Rotary Snow Sweeper Broom	3000	800 mm Diameter	Extra-wide rotary brush for highway clearing	936 – 946 Series Loaders
011B	Enclosed Collector Road Sweeper	2000	650 mm Dia. /0.54 m³	Built-in collection hopper for snow & debris	Standard Wheel Loaders

011C	Sweeper with Side Brush & Water Tank	2000	650 mm Dia. /0.75 m ³	Includes gutter side brush & dust suppression water spray	Standard Wheel Loaders
012	Heavy Duty Angled Snow Plow	2190	Adjustable Width	High-tensile steel blade for deep snow & ice pushing	936 – 946 Series Loaders

High-Torque Rotary Snow Sweeper Brooms (011A): Features heavy-duty poly/steel bristle rollers in **2500 mm and 3000 mm working widths** (800 mm brush diameter), providing high-speed snow flicking and slush clearing without damaging asphalt road surfaces.

Enclosed Collector Sweeper Brooms (011B / 011C): Industrial collector brooms featuring a **2000 mm sweeping width** and built-in collection hoppers (**0.54 m³ and 0.75 m³ capacities**). Model 011C adds side gutter brushes and a water spraying system for dust suppression during summer road maintenance.

Heavy-Duty Angled Snow Plow Blade (012): Built with a **2190 mm clearing width** and high-tensile steel trip-edge cutting blades, designed to push heavy snow drifts and ice packed on roadsides.

Adjustable Hydraulic Angling: Both snow plows and rotary brooms feature hydraulic angle adjustments to divert snow to the left or right during continuous forward travel.

Universal 936–946 Loader Compatibility: Custom-engineered mounting brackets allow fast pin-on or quick-coupler integration with popular 936 to 946 series wheel loaders.

Product Applications

Municipal Highways & City Streets: Clearing winter snowdrifts, slush, and black ice from public roadways and highway ramps.

Commercial Parking Lots & Airports: Rapid, large-area snow removal across shopping mall lots, logistics hubs, and airport taxiways.

Year-Round Industrial Yard Sweeping: Sweeping dirt, gravel, construction dust, and debris from factory yards and logistics warehouses during non-winter seasons.

Why Choose Us?

All-Season Operational Utility: Converts seasonal winter snow removal equipment into a year-round industrial road sweeper.

Abrasion-Resistant Bristles & Blades: High-density polypropylene/wire broom bristles and reversible plow cutting edges ensure extended service lives under heavy friction.

Factory Direct Reliability: Precision hydraulic motors, reinforced pivot frames, and complete spare parts support provided directly from the manufacturer.
